FRONT END HTML5 | SCSS | Javascript | Typescript | ReactJS | Redux | NextJS | GatsbyJS | AngularJS.

BACK END NodeJS | ExpressJS | Micro FrontEnds | Flask | Webpack | NestJS | CI/CD | Docker | Kubernetes.

DATABASES MongoDB | Firebase | AWS | GraphQL | PostgreSQL.

TESTING Jest | Mocha | TDD.

OTHER Data Structure & Algorithms | Linux | Git | OWASP_Web-Security | React Native | Android | iOS | TCP/IP_Networking | C# | Python | Java.

EXPERIENCE

Rudaina Foundation

May 2018 - Jan 2021

Full Stack Web & Mobile Developer

Architected With: HTML | SCSS | JavaScript | ReactJS | Redux | Firebase | Git | NodeJS | React Native | iOS | Android | etc

To implement: Authentication, Admin panel, Event calendar system, real time chat, Social network, Q&A forum, Image/file upload, user roles, Lifestyle Tracker, etc

That resulted in:

- A full stack web application that satisfied the business requirements. Some of which includes; Users can sign up, register for charity events, update profile, join groups chats, ask questions on forums, etc. Admins can post events, manage user registration, upload blogs, manage subscribers, etc
- A full stack cross platform (iOS & Android) mobile app that satisfied the business requirements. Some of which includes; Users can track their diet, sleep, etc. View company news & blogs, Ask question and get replies in forums, etc

Accomplishments :

- I was presented an "Excellence award" in recognition for "Outstanding performance and team work".

PROJECTS

Crown clothing

<https://crwn-fashion-clothing.herokuapp.com/>

Architected With: HTML | SCSS | JavaScript | ReactJS | Redux | Firebase | Stripe | Node | Express | Git | NodeJS | NextJs | Progressive Web App | Heroku | etc

To implement: Modern E-commerce store UI/UX interface, Authentication, manage cart, make purchase, etc

EDUCATION

University Of Ottawa, Canada.

2016-2020

B.S Honours with Specialization in Computer Science

For my honours project, I did a research on the implementation of SE-Linux, for Multi-Level and Multi-Category Security systems, which received an honorary grade (A).

Zero To Mastery Coding Bootcamp

Online Education-Ongoing

I understand that this is a very fast paced field. So to ensure I am always learning and practicing my skills, I take courses on platforms such as Udacity, CodeAcademy, Udemy, etc. Check out [My course catalogue](#)
